Florida School IPM Focus- Fall update

It is finally here. School has been going for a couple weeks and the weather is finally surprising us with a few cool days. This fall update issue will cover lots of new things and will provide reminders about a couple of reoccurring items. New free videos online with 24 hour access. The availability of a national newsletter. Upcoming training opportunities and a reminder about clutter.

As always for more information on other pests or on developing an IPM program please visit our [website](#).

Videos you can use

Now online we have several short **videos** you can use as a refresher for a topic or in training you may conduct. All the videos and interactions have been made by faculty of UF/IFAS, and are available free of charge as a service of the Florida School Program and Pest Management University. We conduct training at all times of year, but insects (pests and beneficial) are not always present or active. We have several videos up now for bed bugs and for landscape pests and beneficials. We hope these **videos and interactions** will help you! More videos are being developed. If you have a suggestion for a video, please **let us know** and we will add it to our to-do-list! Funding to produce these materials was provided by the UF/IFAS Dean for Extension and the Steinmetz Endowment. Check out all of the UF Entomology videos on our **YouTube Channel**.

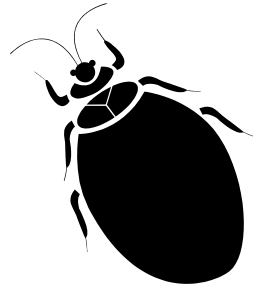

Know the Facts: School IPM 2015 Newsletter

- The monthly **School IPM 2015 eNewsletter** highlights real-life examples of IPM in practice.
- Improve your ability to educate and gain cooperation from key staff including maintenance, custodial and food service.
- You are invited to sign up for the FREE School IPM 2015 mailing list.
- Signing up is easy. Email your name and contact information to: **newsletter@schoolipm2015.com**
- Submitted by: Zach Bruns, Project Assistant, IPM Institute of North America, Inc.

Emphasis NPMA and All Things Bed Bugs

To go along with our bed bug videos you may also be interested in some new sheets developed by the **National Pest Management Association**. Only the first sheet is specific to schools but the other sheets may be useful for other areas you manage:

- **Protocols for Schools**
- **Protocols for Retail Stores**
- **Protocols for Hotels & Lodging**
- **Protocols for Medical Facilities**
- **Protocols for Corporate Offices**
- **Protocols for Multi-Family Housing and Apartments**
- **Protocols for Public Transportation**

Submitted by: Bob Rosenberg, National Pest Management Association.

Don't forget!

We have all of our past issues of School IPM News Online.

If you are new to the School IPM News mailing list you might want to go and get caught up by reading some of our past issues. Long standing members might want a refresher on some of these topics that arise every fall:

- **Volume 2 Number 10- Good Neighbors**
- **Volume 2 Number 8- Landscaping**
- **Volume 2 Number 7- German Cockroach**
- **Volume 1 Number 8- Rodents**
- **Volume 1 Number 7- Clutter**

News!

We hope you will submit news items and would be happy to help you write a story if you have an idea but don't have the time to write up the information. This newsletter will be published as content arrives, please keep the information flowing! Please send news items to **Jennifer Gillett-Kaufman**.

Visit our website for back issues of **Florida School IPM News**. You can scan the QR code on the right with your smart phone or tablet to get there faster. You will need a QR code reader!
