Florida School IPM News

Volume 3, Number 2

School IPM Focus- Information Overload

We are sure you all are in the same boat as us, lots of emails and not a bunch of time! In the articles below we will describe a few resources and new publications you might find useful. There is a good possibility these have already come across your desk in the last few months and we hope the synopsis we provide will make it easy for you to decide if it is a resource you should put in your toolbox.

As always for more information on pests or on developing an IPM program please visit our [website](#).

Know the Facts: IPM, EPA and Indoor Air Quality

The Indoor Air Quality (IAQ) Tools for Schools guidance is designed to help schools maintain a healthy environment in school buildings by identifying, correcting and preventing IAQ problems. Learn more about the IAQ Tools for Schools guidance at

<http://www.epa.gov/iaq/schools>

Questions?

If you have any questions about the IAQ Tools for Schools guidance, please contact the IAQ Tools for Schools Connector Coordinator at

IAQTfSConnector@cadmusgroup.com

IPM Institute of North America, Inc.

While we usually focus of issues that are requested by Florida pest managers we do occasionally get requests from outside the state to share information with you.

[The Business Case for Integrated Pest Management in Schools: Cutting Costs and Increasing Benefits](#)

and

[Reducing your Child's Asthma using Integrated Pest Management: A Practical Home Guide for Parents](#)

The documents linked above are case study documents that can provide school staff, parents, and contracted pest management professionals with new market insights and tips on how Integrated Pest Management (IPM) can improve their health initiatives, facility management, and renovation and design strategies.
