Florida School IPM Focus- Training

This issue covers a very important and time sensitive topic- Facilities IPM Technician Training and our first PMU Bed Bug Management class. We understand that training and travel budgets have been reduced or eliminated for many programs. With this in mind the FPMA will partner with UF/IFAS Pest Management University (PMU) and UF/IFAS County Extension to provide their second joint statewide training at several remote locations. Space is limited at some of the sites but there are 11 locations around the state where the **August 23rd** training will take place. We would like to encourage you to participate in this training opportunity.

As always for more information on pests or on developing an IPM program for your school or district please visit our [website](#).

Identification of Training Opportunities

In partnership with FPMA, PMU and UF/IFAS County Extension will present a Facilities IPM Technician Training broadcast from the Apopka Research and Education Center to 10 other IFAS locations across the state including several local County Extension offices and Research and Education Centers. The cost of this 9:00 am - 5:00 pm (EDT) training is only \$75 and includes training, booklets and lunch.

This partnership brings PMUs unique blend of hands-on training and lectures to convenient, nearby locations. Space is limited so register today with the attached form.

For additional information please contact Mandy Judd at FPMA Headquarters 800.426.4829 or Mandyj@flpma.org

CEUs and Other Details

5 Hours of ID Card Holder Verifiable Training
